Secure, Cost Effective Email

With up front costs of at least a few thousand pounds, owning your own email server can be both expensive and difficult to manage. This is why most primary schools are now opting for a hosted email solution.

Perfect for both teachers and students the Oakford Webmail solution provides all standard email features in a safe easy to use interface (pictured above). Email can also be accessed through Microsoft Outlook on your PC.

Some of the email features included are—

- Personal & Global Address Lists
- Distribution List
- 1GB Mailbox
- Anti Spam & Anti Virus
- Mobile Email Access
- Email Signatures
- RSS Feeds

All of these features are available on a monthly contract with no setup or cancellation fees making our hosted exchange solution extremely flexible.
